A modern interior space with large windows, a grey sofa, and a coffee table. The room is decorated with white orchids and a framed abstract painting. The image is overlaid with a large teal triangle on the right and an orange triangle on the left. The text is enclosed in a white-bordered box.

“The company believes
in Producing Quality
rather than inspecting it.”

COMPANY

Dblend Coatings (Pvt) Ltd is a medium scale manufacturing company of construction materials and chemicals. We specialize in manufacturing skim coats and plan to introduce tile mortar as the second main product in near future.

Our organization commenced operations in 2009 as a Partnership of three chemical engineers and has been established as a Private Limited company in 2011. One of the founders, Eng. Dr. Shantha Amarasinghe has completed his postgraduate studies in the area of particle technology and is keen in contributing his vast research experience to develop products for the construction industry to satisfy local requirements and climatic conditions. Present directors, Mr. Washeera Wijesinghe and Mr. Kasun Udana, who are also founders of the company, two energetic young chemical and process engineers with the wisdom of developing a leading manufacturing company for construction materials and chemicals in Sri Lanka. One of the present directors, Mr. Chaminda K. Priyadarshana is a Civil Engineer who has worthy experience in the construction industry.

“The company believes in producing Quality rather than inspecting it.” For achievement of the above the company has initially limited its product range and capacity with the aim of continuously improving quality through research and development. As a result we were able to introduce two high quality brands of skim coats to meet the customer requirements and satisfaction.

The main factory is located at Kahathuduwa around 3 km from Kahathuduwa interchange of Southern highway. The production capacity for skim coats has gradually increased from 5000 packs to 20000 packs per month over the past 3 years. The main strength of the company is our strong background and the capability in Research and Development. Our philosophy is to grow gradually but sustainably. We believe that future of Sri Lankan industry strongly dependant on the ability to be competitive through innovation.

MAIN SHAREHOLDERS & PRESENT BOARD OF DIRECTORS

H. P. Kasun Udana

Director – Operations
and Technical

Mr. H. P. Kasun Udana is an initial director of the company. He is a Chemical and Process Engineer graduated from University of Moratuwa on 2006 and holder of a MSc on Sustainable Process Development carried out by University of Moratuwa collaboration with Telemark University, Norway.

He worked at MAS Active – Linia Intimo for about two years as a Production Engineer. He further has experience as a visiting lecturer at Chemical and Process Engineering Department of University of Moratuwa and Institute of Technology at University of Moratuwa (ITUM).

**Washeera Nilushika
Wijesinghe**

Director - Marketing

Mr. Washeera Nilushika Wijesinghe is also an initial director of the company. He is a Chemical and Process Engineer graduated from University of Moratuwa on 2006. He is a UNIDO certified CP consultant.

**K. K. D. Chaminda Kumara
Priyadharshana**

Director

"Mr. K. K. D. Chaminda Kumara Priyadharshana joined to the board in the year 2015. He is a Civil Engineer graduated from University of Moratuwa on 2006. He further holds a MBA from University of Moratuwa. Currently he is the Head of Division of Civil Constructions at ATSL International (Pvt) Limited (A member of Access group). He worked as a Project Engineer at Provincial Road Development Authority - Western Province and Access Telecommunications (Pvt) Limited."

PRODUCTS

Dblend Coatings specializes in construction materials and chemicals and two brands of high quality skim coats have already been introduced to the market. Both are cement based skim coats and Calcium Magnesium Carbonate is used as the base compound with composition around 80% - 90% by weight. Hydroxypropyl Methyl Cellulose (HPMC) and copolymer powder of Vinyl Acetate and Ethylene are added to the products to improve adhesion, flexural strength, abrasion resistance, cracking resistance and workability. Both products were tested for the quality and were approved by Industrial Technology Institute (ITI), Sri Lanka.

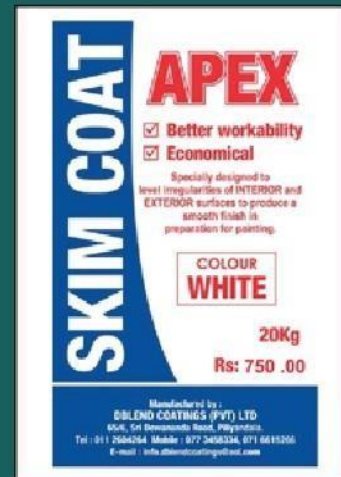

DBLEND SUPER COAT

"Dblend Super Coat (formerly known as Diyakada) is blended with finest minerals and special polymers to achieve high adhesive strength and to maintain high bonding strength and cracking resistance. It can be easily applied on interior and exterior surfaces. It enhances the life and effect of paints with durable finish. It is an ultimate solution for highest quality plastering.

Colors:  White  Grey

DBLEND APEX

Dblend Apex is specially formulated for thin plastering applications and to level irregularities of wall surfaces. Fine and uniformly aggregate compounds are used in this quality product to achieve extra smooth finish in preparation for painting. Apex skim coat is a cost effective and efficient solution for good quality plastering applications.

Colors:  White  Grey

SOME OF OUR VALUED CUSTOMERS INCLUDE

- Sanken Constructions (Pvt) Limited
- Central Engineering Services (Pvt) Limited / CECB
- Tudawe Brothers (Pvt) Limited
- Access Telecommunications (Pvt) Limited
- ROPA – Constructions (Pvt) Limited
- JCK Constructions (Pvt) Limited
- Wemara Constructions (Pvt) Limited
- Senula Constructions (Pvt) Limited
- Dream Builders (Pvt) Limited
- 2K Constructions (Pvt) Limited
- Lakrotech (Pvt) Limited
- Lakshan Engineering (Pvt) Limited
- JJ Aaron Richard Company Pvt Ltd

MAIN PROJECTS

Angunakolapelessa Prison Complex

Client : Sanken Constructions

**The Regional Support Centre (Western South)
of National Water Supply
& Drainage Board, Rathmalana**

Client : Central Engineering Services (Called as CICB before)

MAIN PROJECTS

St. Peters College, Colombo.
Client : JJ Aaron Richard Company Pvt Ltd

Ward City, Gampaha.
Client : Gampaha Development Company (Sanosa)

Orex City, Ekala
Client : Gampaha Development Company

Arpico Super Center (Kurunegala)
Client : Senula Constructions

Utility Building for Garton's Ark Floating Restaurant
Client : JCK Constructions

Prime 194 Nugegoda (Apartment)
Client : RO-PA Constructions

Skyline Kotte (Apartment)
Client : Skyline Property Developers

Garton Cape Hotel
Client : JCK Constructions

MAIN PROJECTS

Nano Technology Park, Homagama.
Client : Tudawe Brothers (Pvt) Ltd.

Main Switching Centre : Disaster Recovery of Airtel Sri Lanka. Rammugala
Client : Access Telecommunications (Pvt) Ltd.

Bungalow for Holly Cross Trust, Eluthumadduval.
Client : JJ Aaron Richard Company Pvt Ltd

Pandanus Beach Resort and Spa, Induruwa.
Client : NC Constructions

- **Linear accelerator building at Karapitiya Hospital, Galle**
Client: Central Engineering & Consultancy Bureau
- **Cenolanka apartment building, School Lane, Nawala**
Client: Savisevana (Pvt) Limited
- **Nittambuwa Sathi Pola**
Client: Wemara Constructions (Pvt) Limited.
- **Police Stations – Abanpola, Divulapitiya, Wellawa**
Client: Wemara Constructions (Pvt) Limited.
- **Office building for Garton's Hotel (Pvt) Ltd, Nugegoda**
Client: JCK Constructions (Pvt) Limited.
- **Railway Station Development - Gampaha and Meerigama**
Client: 2K Constructions (Pvt) Limited.
- **Nikawaratiya Sathi Pola**
Client: 2K Constructions (Pvt) Limited.
- **Housing Projects**
Client: 2K Constructions (Pvt) Limited.
- **Railway Station - Pesalai**
Client: Lakrotech (Pvt) Limited.
- **Railway Station Development - Madawachchiya**
Client: Lakrotech (Pvt) Limited.
- **Housing Projects**
Client: Lakshan Engineering (Pvt) Limited.
- **Housing Projects**
Client: DBL Homes (Pvt) Limited.
